

Advertising Partner Testimonials

My experience in advertising with Mindful Metropolis has been great...when you advertise with them it's more like working with people who, as a community, care about your success. It's more than a magazine; it's a lifestyle, a mindset, a commonality with a lot of people who are interested in what you do, MM gets you out there to other like-minded individuals. I've been working with the MM staff for three years and its only gotten better. You can participate in events or just go to them - and either way its a wonderful way to network and make new friends. I enjoy my relationship with MM and look forward to every new issue!"

It was a pleasure partnering with Mindful Metropolis for our event, Shift Happens. The promotions and outreach Mindful Metropolis provided for our event helped to make it a huge success! Not only are they effective at getting the word out to the larger Chicago community, but they are also passionate about the events and causes they promote. Their passion and sincerity for the work they do makes all the difference. It feels good knowing that the people behind Mindful Metropolis don't just see it as a job, but as an extension of their personal values and beliefs. Thank you!

We have been thrilled with the response from our ad in Mindful Metropolis. Every week since the first issue we have had new clients call us. These clients have understood what we offer and are extremely well suited to our specialized holistic veterinary practice. We couldn't be more pleased with the effectiveness of our advertisement."

I am so impressed with the graphics and the content of Mindful Metropolis. The local focus is impressive and encouraging. I have been watching with each new issue over the months. When the new issue comes out, I tuck it away and read it cover to cover in my down time. It is always informative, enlightening and well done!

Pivotal has been thrilled by the response to our inclusion in Mindful Metropolis. It has done wonders in getting our name and services out to the LOHAS/Green community. I can't tell you

how many times we hear, “Oh right, Pivotal, I saw you in Mindful Metropolis.” We are so proud to be linked to such a wonderful business doing amazing things for our community.

Partnering with Mindful Metropolis has benefited our business in so many ways! By featuring our Farm Dinners in editorial and on their calendar, Mindful Metropolis has raised the level of awareness to the Conscious community; in addition our monthly advertising allows us to directly reach our target demographic and has garnered business for us. And, outside of sales and editorial, they are a fun group of like-minded people who I am happy to attach our brand to, and endorse them wholeheartedly!

Mindful Metropolis articulates the positive changes happening in Chicago in a way that stretches beyond the green community. Its approachable style invites those who aren’t so sure about their place in “all this” to pull up a chair and talk about it; because, first-and-foremost, Mindful Metropolis is about community. We are so fortunate to have Mindful Metropolis as the voice of our “small” town.

I personally support local publications that support local and independent businesses. Publications like Mindful Metropolis and their founding members just "get it!! They actually take the time and get to know THEIR local businesses and what makes them tick! They truly know the owner-operators on a personal and professional level. And because MM knows who it is they are supporting they are the front lines for and connect like-minded business. I don’t see my relationship with MM as an advertiser; they are more like a marketing partner. All while bring businesses, communities and people together!! What would Chicago do without them?
